OUR FOREST WEALTH.

A visit paid this week to the various mills and lumbering establishments on Burrard Inlet (our outer harbor) has tended to impress us more than ever with the magnitude and growing importance of our forest wealth, and to convince us that it is the imperative duty of the Government to afford every reasonable facility for the development of this almost inexhaustible resource. A pleasant drive of eight and a half miles, over a road requiring the expenditure of only two or three hundred dollars, if timely applied, to entitle it to be described as excellent, brought us to the "Brighton Hotel," well kept by its enterprising owner, Mr. Oliver Hocking. And here let us make a slight digression to say that Mr. Hocking deserves great praise for the spirit and taste with which he has combatted the numerous natural difficulties which presented themselves, and succeeded in producing a really pretty and comfortable establishment for the accommodation of those who may be induced to visit Brighton, whether on business or in quest of pleasure or for recreation. There is still much work to be done in order to complete a beautiful pleasure ground of five or six acres in extent; but when that is finished we hazard nothing in saying that Brighton will be a very attractive place, and will doubtless become a favorite and fashionable resort. Embarking in a canoe with an Indian and his dusky spouse as a motive power, half an hour brought us to Captain Stamp's mills. These mills have been erected at a cost of \$80,000, but are still unfinished, owing partly to a mistake in shipping the machinery from England. The necessary pieces are, however, on the way out by Express, and when they arrive, the work will doubtless be pushed forward. These mills, when in full operation, will afford employment to about two hundred men, and will turn out probably 80,000 feet of lumber per diem. Proceeding across English Bay, a magnificent sheet of water, affording secure anchorage for the combined navies of the world, we found ourselves at Mr. Rogers' camp. Mr. Rogers is a native of St. Andrews, in the Province of New Brunswick, a locality famous for its lumbering establishments. Referring to a New Brunswick paper before us we find an account of a contest between two of these establishments, those of H. T. Eaton and Emerson Eaton, resulting in favor of the former, which cut and edged in an hour, 7,000 feet against 5,900 by the latter! Mr. Rogers came to this country in '58, and has been engaged, more or less, in the lumber and spar trade on Puget Sound, at Albern and at Port Neville. He has now a contract from Captain Stamp for taking out three cargoes of spars for the French, Russian and Dutch Governments respectively. Two of these cargoes are now ready and awaiting shipment. Those for the French Government are the largest, ranging as high as 150 feet in length, and 40 inches in diameter, without a single knot! Some of these sticks have been taken out 180 feet in length, but have been reduced to 150, the former length being too great for shipment. Mr. Rogers, after years experience in the lumber and spar trade in other countries, declares that the lumber on Burrard Inlet is unequalled in the world, both for spars and for lumber. He has a fine set of men, chiefly from his own native place, and now possesses facilities for working which will enable him to take out these magnificent spars at the rate of 100 tons per diem. It would be difficult to calculate the result of the shipment of these three

cargoes of spars to the several countries for which they are intended, and the two cargoes already sent to Ireland. They will go abroad to the world a most effective advertisement, and the result cannot fail to be a considerable demand for our timber. Proceeding up the north-west side of the Inlet, two hours paddling brought us to the Mills of Messrs. Moody & Co. The mills have not been going for the past four weeks, but will commence running next week. These mills, as many of our readers know, are propelled by water, conducted from a creek a mile off, by means of a substantial ditch. They mills have been greatly improved and extended since they came into the hands of their present enterprising owners, while several good houses have sprung up around. We learn that Messrs. Moody & Co. have manufactured and shipped to various distant markets, during the comparatively brief period they have had these mills, a little over five millions feet of sawed lumber. The mills are now in excellent order with capacity to cut and edge fifty thousand feet a day, and there are now lying in the boom ready for manufacture two and a half million feet of as fine looking logs as could be desired, while Mr. Andrews, the energetic foreman of the logging party, is rapidly augmenting the quantity. He has a gang of as likely looking men as we ever saw taken into the forest. Messrs. Moody & Co. expect a ship to arrive in a few days for a cargo of 400,000 feet of lumber. We understand that at this mill lumber is being manufactured at a smaller cost than anywhere else upon this coast, and certainly the timber cannot be surpassed in point of quality anywhere. It is our intention to follow up this subject in a future issue, alluding to some of the ways in which we conceive it to be the duty of the Government to encourage and facilitate the development of our immense forest wealth.

TO THE ELECTORS OF THE City and District OF NEW WESTMINSTER.

GENTLEMEN:

In reply to a numerous signed requisition, I now offer myself as a candidate for a seat in the next Legislative Council of this Colony, feeling sure my principles are so well known to you all that I can confidently expect the cordial support of my friends.

Having previously been a representative of the people, not only in the Legislative Council, but also on the Mining Board in Cariboo, my past experience will better enable me to fulfil the duties devolving upon your representative should you return me as your member. The following being the principal questions which will probably occupy the attention of the Council during the ensuing session I now beg to submit my views upon them to you.

Upon the question of Retrenchment, I am of opinion that a considerable reduction can be made in all branches of the Civil Service without affecting its efficiency.

I would favor a system of National Schools throughout the Colony.

I would support any measure having for its object the suppression of smuggling or sale of liquor to Indians.

With reference to the Agricultural interests of the Colony, I would advocate that free grants of land be made to bona fide settlers; that a tax be levied on all unimproved lands; that the vexatious Indian land question should be at once adjusted; and that all Government Reserves should be thrown open. I would further advocate a tax on orchard produce, to protect the fruit growers of this Colony against those of Oregon and Washington Territory.

I don't think that Union with Vancouver Island will be beneficial to this Colony, but I am prepared to support the proposed Annexation Bill.

I am in favor of any Homestead Law that will assist the settler without being injurious to the proprietor.

I advocate the total abolition of Tonnage Dues and the construction of Roads throughout settled districts in the Colony.

I will, if returned, support any Bill that may be brought forward, which I believe would tend to advance the interests of the Colony or those of my constituents.

I am, Gentlemen,

Your obedient servant,

A. W. S. BLACK.

TO THE ELECTORS OF THE City and District of NEW WESTMINSTER.

FELLOW COLONISTS.

A General Election is at hand, and you are called upon to select a man to represent your interests in the Legislative Council of the Colony. I have consented to offer myself as a candidate for your suffrages, your old and faithful representative having retired.

Having addressed you twice a week, during the past six years, through the columns of the BRITISH COLUMBIAN newspaper, upon nearly every important public question which has arisen, it will not be necessary for me now to enter into any lengthened exposition of my political views and principles; but inasmuch as it is expected of a candidate to enunciate his creed, in coming before the people for their suffrages, I shall touch briefly upon a few of the more prominent topics which occupy the popular mind at the present time. If you should do me the honor of electing me to represent this most important constituency in the Legislative Council, I shall support, amongst others, the following measures:

1. The question of union, so long and so variously advocated by the people of Victoria, and so uniformly spurned by the people of British Columbia, has recently assumed an entirely altered aspect. The Imperial Government has, as you are aware, decided to incorporate Vancouver Island with British Columbia, upon conditions already sufficiently known to you; provided the Legislatures of both Colonies should accept the new constitution. Although British Columbia has little to gain by such an acquisition I am disposed to view incorporation upon the terms proposed as perhaps the most ready and effective means for putting an end to agitations replete with injury to both Colonies.

2. Retrenchment in the Civil Service; for, although with the contemplated changes in the constitution and territorial boundaries of the colony the necessity for retrenchment may undergo some modification, still there would, I apprehend, be considerable room for a reduction in the expenses of some of the Government Departments.

3. Abolition of the Tonnage Dues, if not in whole, in so far as they apply to articles of Home product or manufacture, and a healthy protection for agriculturists near the seaboard against foreign competition.

4. A wholesome Homestead Law, carefully guarding the settler against oppression, on the one hand, and the creditor against fraud on the other.

5. Free grants of land to all actual settlers, and a tax upon wild land held purely for speculative purposes, the revenue derived from such tax to be expended in constructing roads in the districts where collected.

6. A speedy and final adjustment of the Indian land question, securing to the Native Tribes a reasonable amount of land for actual use, and no more; and the throwing open of the remainder, and of the numerous Government reserves created during the late Administration, to the actual settler.

7. The construction of main roads through all the settled districts, so as to bring the Agriculturists into connection with the markets of the colony.

8. More stringent measures for the suppression of the smuggling and illicit whisky trade so extensively carried on between Victoria and the Indians along our seaboard.

9. An immigration scheme by which families and farm laborers might be assisted in reaching a Colony peculiarly fitted to receive and employ them.

There are various other questions of great importance, such, for instance, as that of the Federation of all the British Possessions upon this continent, which it would be impossible, as it is unnecessary to discuss in the present address. I shall, however, be happy to avail myself of any opportunity which may present itself of meeting you for the purpose of enunciating my views more fully, and answering any questions which may suggest themselves.

I have only to say, in conclusion, that if an honest, and, I may truly affirm, a laborious zeal for the interests of this my adopted country have given me any claim to your confidence and esteem the only return I ask is that you will, by your votes, place me in that position which of all others will enable me the most effectually to labor for the promotion of your best interests.

I have the honor to be,

Fellow Colonists,

Your most obedient servant,

JOHN ROBSON.

**THE VICTORIA CHAMBER OF
COMMERCE.**

We have before us, at an expense of fifty cents, a pamphlet in quarto of 47 pages, entitled "Reply of the Victoria, N. L. Chamber of Commerce to His Excellency Frederick Seymour, Governor of British Columbia." The pamphlet has been published and copies forwarded to the Secretary of State for the Colonies, and its authors are possibly comforting themselves with the reflection that it will prove an extinguisher to Governor Seymour and his despatches. "Where ignorance is bliss," says the old proverb, "it is folly to be wise." We have no desire to disturb the pleasing hallucination; yet the cause of truth demands an exposure of the gross mis-statements, and the looseness and carelessness in dealing with facts which are exhibited in the pamphlet. The loss of the papers and documents essential to dealing with the body of the "reply," by the fire which recently occurred in our office, renders a little delay necessary; we shall therefore confine our present remarks to certain certificates and papers accompanying that reply. First, we have certificates from Captains Swanson and Lewis, depreciating the navigation at the entrance of the Fraser River. We do not wish in any way to call in question the ability of these two men as navigators, or their knowledge of the particular navigation in question. It will be a sufficient reply to their certificates to state that they are the servants of a not over scrupulous company, who have the strongest possible motive for decrying the navigation of the Lower Fraser, and that it has always been well understood that the instructions of that company required the masters of their steamers plying into the Fraser to ground them occasionally upon the sands at the mouth, in order to deter shipping from coming here. Next, we have a certificate from John S. Titcomb, a person who was unfortunately for some time a licensed pilot for the Fraser River. The following is a copy of ex-pilot Titcomb's certificate:

"This is to certify that I am a licensed Pilot for British Columbia, and that I have navigated Fraser River since 1883. In 1859 and the fore part of 1860 the channel was intricate and difficult to find, and was imperfectly buoyed; the buoys have disappeared on several occasions, owing to the shifting of the Sand Heads, which caused them to settle down. The channel has shifted materially within my knowledge. In 1859 and the fore part of 1860 it would not have been safe to take a vessel in drawing more than sixteen feet, and then not without care. I piloted H.M.S. Tribune safely into Fraser River, and was on board when she struck going out; her draught of water—13 feet 7 inches—was too great to allow her to be taken out of the river with safety. There is risk in taking a vessel of her draught either into or out of the Fraser River. In the actual channel by which I took H.M.S. Tribune into the river there are not now more than five feet of water at low water."

A certificate which sets out with a positive untruth is certainly not entitled to very much consideration. Titcomb did, as we have said, hold a license from our Government. An Ordinance was passed last session, providing for the Governor in Council framing rules and regulations for the pilotage of the Colony, and for the establishment of a Pilot Board. Under the provisions of that Ordinance a Pilot Board was established in May. The last clause of those regulations reads as follows:—

"All licenses for the Colony of British Columbia, previously granted are annulled from and after the 1st July, now extending." Titcomb never qualified under the new law, nor, need we say, could he qualify, inasmuch as his disqualifications were patent to the Board and to the public, but which, out of consideration to the unfortunate individual, shall be nameless, at least for the present. The assertion with which Titcomb's

certificate sets out is, therefore, simply untrue. Can it be supposed that the reckless, biased and incorrect assertions of such men will have any weight with the Secretary of State, when set up in direct opposition to the unbiased, scientific and carefully drawn up reports of Captain Richards R.N., Hydrographer to the British Navy? The Chamber of Commerce

also publishes copious extracts from the *Cariboo Sentinel* and the *Yale Tribune*, two papers alluded to as "independent and totally uninfluenced by Victoria," while this journal is alluded to as alone taking the side of Governor Seymour, and is described as "the organ of New Westminster and of the officials." That the two first-named papers are totally "uninfluenced by Victoria" the authors of the pamphlet will hardly expect the people in these Colonies to believe, however they may hope to impose upon the Secretary of State; and whoever reads this journal will experience some difficulty in realizing that it is an "organ of the officials." When a body of men, styling themselves a "Chamber of Commerce" can exhibit such a "looseness and carelessness in dealing with facts," when they can make positive assertions, knowing them to be untrue, when they are reduced to the desperate expedient of procuring false certificates, when they are driven to copy articles from a California paper, written by a Victorian, and from two avowedly Victorian sheets, started in this Colony, by Victorians, for the express purpose of subverting our Government, when they have to drag in such evidence as this to prove their case—appeal to such authority in support of a miserable attempt to defend their notorious resolutions of 1865 against the scathing exposure of them by Governor Seymour, their attitude before the country is indeed one which must beget contempt and disgust.

New Advertisements.**AYER'S
CATHARTIC
PILLS.**

ARE you sick, feeble, and complaining? Are you out of order with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some of the sickness is creeping upon you and should be arrested by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, offering a disease. While in this condition, oppressed by the derangement, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous disorders. The same purgative effect expels them. Caused by similar obstructions, and derangement of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know have failed to find relief in this remedy. It is a true and reliable medicine, and one which will not injure the system. It is a true and reliable medicine, and one which will not injure the system. It is a true and reliable medicine, and one which will not injure the system.

From a *Forerunning Merchant of St. Louis, Feb. 4, 1856.*

Dr. Ayer: Your Pills are the purgation of all that is bad in the system. They have cured me of a chronic disease of the bowels, and have since that time been a permanent cure. I have never since had a return of the disease, and I am now in perfect health. I have no more to say of your Pills, but I can say that I have never known a more reliable medicine.

As a Family Medicine.

Your Pills are the prince of purgatives. Their excellent qualities surpass any other purgative we possess. They are mild, but very efficient and effective in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Boston. I have cured with your Pills a number of cases of headache, sick headache, and foul stomach. I have never known a more reliable medicine.

From Dr. J. W. Preble, St. Louis, Mo.

Dr. J. W. Preble: I have been repeatedly cured of the worst headache, any body can have, by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City. Not only are your Pills adapted to their purpose as an aperient, but I find their beneficial effects upon the liver very marked indeed. They have in my practice proved an efficient remedy for the cure of bilious complaints, and any one who has used them will be glad to hear that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,

Washington, D. C., Feb. 18, 1895. Sir: I have used your pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best I have ever used. Their regulating action on the liver is quick and decided, consequently an admirable remedy for derangement of that organ. Indeed, I have seen a case of bilious disease so obstinate that it did not readily yield to them. I have used them since, and they have cured me.

Dysentery, Diarrhea, Relax, Worms.

From Dr. J. W. Preble, of Chicago. Your Pills have had a long trial in my practice, and I have found them to be one of the best remedies I have ever used. Their action is quick and decided, and they are an excellent remedy for bilious complaints, and any one who has used them will be glad to hear that we have at length a purgative which is worthy the confidence of the profession and the people.

Dyspepsia, Impurity of the Blood.

From Rev. J. H. Hines, Pastor of Advent Church, Boston. Dr. Ayer: I have used your Pills with extraordinary success in my family and among the poor. I am called to visit in distress. To regulate the organs of digestion and to cleanse the blood, I have used your Pills. I have never known a more reliable medicine.

WARREN, Wyoming Co., N. Y., Oct. 23, 1855.

Dear Sir: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the functions of the blood.

JOHN G. MACHAM, M. D.

Constitution, Constipation, Suppression,

Rheumatism, Neuralgia, Dropsy, Paralysis, Etc., etc.

From Dr. J. P. Vaughan, Montreal, Canada.

From Dr. J. P. Vaughan, Montreal, Canada. I cannot say enough of your Pills for the cure of constipation. I have used them for many years, and they are as effective as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which almost all caught in itself, is the precursor of others that are worse. I believe constipation to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Mother's, Boston.

I find one or two large pills of Mr. Ayer's Pills taken at the proper time, are excellent purgatives of the natural secretions, from which are partially suppressed, and also very effective to cleanse the stomach and expel worms. They are so much the best pills I have used that I recommend no other to my patients.

THE BED-RIDDEN
HOLLOWAY'S OINTMENT**

This wonderful Ointment acts like magic in relieving and curing old sores, wounds, skin eruptions, and all the skin diseases which are the result of the most wholesome influence over the internal structures. It heals by cleansing all animal fluids with which it comes in contact, and therefore promotes a sound and permanent cure.

Gout and Rheumatism.

Tormentors from the rankings of Rheumatism and Gout this Ointment will prove invaluable. After friction with warm water the soothing action of this Ointment is most remarkable; it sweeps at once to the inflammation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible specifics.

Diphtheria, Bronchitis, Sore Throats, Coughs and Colds.

This class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest, and back of the patient. It will soon penetrate and give immediate relief, in all stages of Influenza, Croup, and Bronchitis. This treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. It is not to be treated with a caustic or more speedily remedy than Holloway's Ointment, assisted by his celebrated Pills. This will act so powerfully on the constitution, and purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained.

Dropsical Swelling.

Beware of this dangerous and stealthy complaint, which frequently creeps upon us by slight squandrous or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach; therefore, act to work earnestly, by taking Holloway's famous Pills according to the printed instructions, and rubbing the Ointment very effectively over the pit of the stomach and right side, where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the most intimate friends. Persons suffer for years from Piles and similar complaints when they might use Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone. The Pills purify the blood, regulate the circulation, renew diseased structures, and invigorate the whole system.

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed, twice a day, upon the back of the back, over the region of the kidneys, to which it will gradually penetrate, and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases:—

Chapped hands, Scalds, Contracted and Stiff joints, Burns, Bruises, Rheumatism, Stomachic, Gout, Gravel, Dropsy, Paralysis, Etc., etc.

At the establishment of HOLLOWAY, 221, Strand, (near Temple Bar) London, and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—Is. 12d., 2s., 4s., 6s., 12s., 22s., and 35s., each Pot.

* There is a considerable saving by taking the larger sizes.

* Directions for the guidance of patients in every disorder are affixed to each Pot.

"See so!" "Exactly!"—Salem Shingle said; they were there "every time." If he felt "sorely" in the morning, he took Plantation Bitters; if he felt weary at night, he took Plantation Bitters; if he lacked appetite, he took Plantation Bitters; and they never failed to set him on his pins and needles.

A few bottles of PLANTATION BITTERS will cure Nervous Headache, Cold Extremities and Feverish Lips, Stomach and Bowel Disorders, Flatulency and Indigestion, Nervous Affections, Excessive Fatigue and Short Breath, Pain over the Eyes, Mental Depression, Prostration, Great Weakness, and all other ailments.

Which are evidence of LIVER COMPLAINT AND DYSPEPSIA.

After a long research, we are able to present the most perfect medicine for the cure of all these ailments. Within one year over six hundred and forty thousand persons have taken the Plantation Bitters, and not an instance of complaint has come to our knowledge.

It is a most effective tonic and agreeable stimulant, suited to all conditions of life.

The report that it relies upon mineral substances for its active properties is wholly false. The original quality and high standing of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. These testimonials to come as near our name and style as they can, and because a good article cannot be sold as low as a poor one, they find some support from parties who do not care what they sell. Be on your guard. See our private stamp over the cork.

NOTICE. CODVILLE LANDING!

Important to Packers, Stock Drivers, and the Public in General.

THE Public are respectfully informed that James Codville, of the wide renowned Codville Landing Ranch, is prepared to receive any number of animals and cattle to ranch this coming winter on the most liberal terms.

Large Reductions from the regular price made in favor of trains.

Persons intending wintering their own stock can be accommodated with Hay in the stack, and stables and sheds for their animals, and Houses for themselves, on the most reasonable terms.

The Ranch is situated on the opposite side of the Fraser from that of Sumas, is on an island 6 1/2 miles long by 4 1/2 wide, is high and dry, no place where animals can mire, well protected from north winds, free from any kind of poison weed, and affords every facility, natural and artificial, for the accommodation of stock.

James Codville would also call public attention to the fact that he is prepared to furnish Hay at a very reduced price, and in quantities to suit all purchasers.

In returning thanks to the Public for past patronage, I am in hopes that the good condition in which I turned out animals on former seasons will secure for me a share of the Public patronage this coming winter.

Horse cyfers, pack saddles, and all rigging taken care of, and every satisfaction given for the least possible charge to those who may entrust their stock to me, or order Hay.

AGENTS.—DITZ & NELSON, New Westminster. A. BARLOW, Esq., Yale.

Remember Codville Landing, not Sumas. An Open and a ferry from the 1st October, for the traveling Public.

JAMES CODVILLE, N. B.—Stock bought and sold on commission.
